or you can e-mail it to:

viknik@cfi.rr.com

If you plan to run from the floor, your credentials must be sent to the Nominating Committee chair (Vicki Nikoncyk) seven (7) days before the Annual Meeting.

What is Expected of an Association Board Member?

For those members who may have considered submitting their name for nomination as a board member of this Association, or have not considered committing, because they don't know what is expected of a board member, we submit to you the following thoughts developed for you. If you are still interested, download and complete the attached application.

As a board member, you are expected to be a member of the Orlando Regional USBC, with a good background in bowling.

You will be expected to attend the board of directors' meetings. You will also be expected to work in the annual tournaments (Youth, Women's, and Open).

You will be assigned to bowling centers reasonably close to your home, either by yourself or in conjunction with another board member. Here, you will be asked to serve all the bowling leagues in these centers, listen to their complaints and problems, and attempt to ease them without offending. You will canvas the center for non-sanctioned leagues, and entries in our Association's Tournaments. You will be asked to visit with the proprietor often enough to show our interest and hold his or her good will.

You might join other board members in entering tournaments promoted by our Association, the FL State, or USBC, and you will be expected to promote these tournaments. You will be asked to attend annual conventions in these as a delegate as well.

You will be expected to promote and attend our annual Toys for Tots event held in December.

If you have any talents such as finance, accounting, or legal, etc., you will be asked to lend this expertise without financial compensation.

You will be asked to serve on one or more committees which organize and administrate various segments of the Association programming.

The Association will endeavor to advise each league of your assignment as Association representative. This means you may be called upon to make rule interpretations, settle league disagreements or differences between the league and management. You will have to be alert and provide carefully thought out and deliberate advice and solutions.

In cases of rule interpretations, you must investigate league rules or be guided strictly by USBC rules and regulations. If the situation involves a point that can be settled within the league itself, they may wish for you to attend a league meeting to assist with a problem, and the Association office will, in these cases, brief you on the problem.

Be prepared to make special lane inspections as part of your assignment. Experienced, qualified persons perform these inspections, and you may be asked to serve in this capacity by the Association Manager.

You will avoid being involved in any discussion between a league and management publicly. You must, if necessary, conduct a private discussion. Do not give a pre-conceived opinion, even when you have beforehand information. You are to arbitrate and maintain a neutral position, and will settle the difference from the facts.

Give only opinions on a rule that can be backed up in the rulebook. Never improvise on a rule to suit what you or someone else thinks will solve a local situation. Never permit sympathy or personal feelings to interfere with sound judgement.

Contact the Association office whenever in doubt on rules or regulations or, if for some reason, there is a matter you feel is beyond your scope of experience or knowledge to handle.

A Director should never assume the responsibility of declaring the pins or lane conditions non-regulation. If you notice an apparent irregularity, you may discuss the matter informally, and in private, with the management, but do not press the issue. Should you believe the matter requires further attention, contact the Association office, from where further action will be originated.
